

Materials

Crayons or Bingo chips or Play-Doh

1 Quarter

Print outs of page 2

Word Lists

Directions

1) Have students take turns flipping the coin.

2) If the coin lands on Heads, the student must say his/her sound 5x or complete 2 tasks. If it lands on Tails the student must say his/her sound 3X or complete 1 task.

3) If the student correctly completes the task, he/she can color one of the circles under that column.

4) Continue to take turns until someone fills in all of the circles.

*If all of the circles under one column are colored and the coin still lands on that side, the student still has to complete the task, but doesn't get to color a circle.
